

Durant Education Foundation

Wait!!!! Don't throw this away!!

It's that time again. The Durant Community School Education Foundation is accepting applications for money for educational projects such as books, equipment, special supplies, etc. We act on these applications in **December** and **May**. In the past, DCSEF has provided funds for hand-puppets for elementary guidance, the reading recovery program, software in the kindergarten-music classes- library, minioXi Wireless upgrades and mimioPads, solar motors and science equipment for the science programs, a camera for the yearbook staff, chair racks for the band, a music field trip for the 3<sup>rd</sup> graders, a ceiling-mounted projection system for the industrial program, and a video projector for the band room. We are very proud of all that we have accomplished.

Some of these projects were done by obtaining grants. To help us help you, we need as much information as possible. Exactly how much money is needed for your project? How many students will the purchase affect, and how often will this purchase be used? Also, please list shipping costs and taxes. **Later**, a **photo** of the students using the new equipment will be needed for a Press Release. If you have questions, please call me at (563) 785-6101. I am here to help.

We have a **mail box** in the Superintendent's office, and we would appreciate it if your requests were dropped off there. They need to be dropped off by 5:00 p.m. the first Friday of December and May. The Board will evaluate the requests as they are received.
